

**IEEE Caixin Sun and Stan Grzybowski Awards
of the IEEE Dielectrics and Electrical Insulation Society (DEIS)
for Best Student Paper at IEEE International Conference on High
Voltage Engineering and Applications**

Award and nomination information

Best Student Paper Award

(Up to 10 student papers will be awarded, the winners will be selected
only on the basis of the technical report submitted)

Prizes: Each award consists of a price of 500 US\$. Only one person
can receive the award per paper.

The IEEE Caixin Sun and Stan Grzybowski Best Student Paper Awards will be given biennially at each IEEE International Conference on High Voltage Engineering and Applications (ICHVE). The conference is fully sponsored by IEEE Dielectrics and Electrical Insulation Society (DEIS). The prizes are funded by the Caixin Sun Education Foundation of Chongqing University, China.

In order to be eligible for the award, a candidate student paper must be submitted by a full-time student (bachelor, master, doctorate or equivalent). The student should appear as the first author of the paper. In addition, the paper must be presented by the student in oral or poster of the ICHVE. The award is open for DEIS, IEEE and non-IEEE student members. Nominations of student papers candidate to the award are made by the Award Committee of ICHVE conferences, based on the received paper review reports.
