

Call for nominations:
IEEE Caixin Sun and Stan Grzybowski Awards
of the IEEE Dielectrics and Electrical Insulation Society (DEIS)
for significant achievements in high-voltage engineering and
applications

Award and nomination information

Young-professional Achievement Award

(three to ten years of career in research, engineering or innovation after
completing Bachelor's degree)

Prizes: The award consists of a subsidy of 5000 US\$, a special plaque and a plenary lecture to be given at IEEE ICHVE 2018.

The IEEE Caixin Sun and Stan Grzybowski Awards have been established in 2018 through an agreement between IEEE International Conference on High Voltage Engineering and Applications (ICHVE) and IEEE Dielectrics and Electrical Insulation Society (DEIS). The award fund have been contributed by the Caixin Sun Foundation of Education at Chongqing University, China.

To nominate a candidate, nomination letter shall be submitted by a third person (nominator). The nominator should include a detailed CV of the candidate, as well as information why she/he think the nominee is qualified. This submission should be accompanied by at least two endorsement letters issued by two IEEE members acquainted with the candidate's achievements. The nominator should also explain how she/he knows the nominee. The nominator should ensure that the nominee commits herself/himself to deliver an award lecture at the ICHVE. Self-nominations are not permitted. Also members of the ICHVE Awards Committee and the DEIS Award Committee cannot submit nominations. The award will only be given if a suitable awardee is identified.

The nomination shall be submitted electronically to the Chair of the ICHVE Awards Committee, Prof. Stanislaw Gubanski (stanislaw.gubanski@chalmers.se) before April 15, 2018. An acknowledgement will be sent to the nominator upon reception of the nomination.
